An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for April is 2.9 percent, one and three-tenths percentage points below the national rate of 4.2 percent, Craig E. Hartzer, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during April 2001 was 3,008,000.

Indiana's April unemployment rate was lower than Illinois, 5.1 percent; Ohio, 3.6 percent; Kentucky, 4.1 percent and, Michigan 4.4 percent.

"Due to seasonal job growth in the construction industry and continued growth in service producing jobs, Indiana's workforce slightly exceeded three million in April," commented Hartzer.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 3,000,100, a decrease of 15,400 from one year ago. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 665,600 in April, a decrease of 23,700 from last year. Motor vehicle manufacturing accounts for 94,600 jobs, 8,800 less than one year ago. Manufacturing of motor vehicle parts totals 60,700. Industrial machinery manufacturing in April accounts for 72,800 Hoosier jobs, 100 less than March.

Construction employment totals 152,900 an increase of 7,800 from last month. Of that, heavy construction reports 17,900 jobs, an increase of 3,300 from March.

(over)

Service producing employment totals 2,175,700 in April, 7,700 more than last year. Transportation and public utilities total 148,600, or 100 less than March.

Retail trade totals 551,800, 6,400 less than a year ago. Of that, general merchandise stores report employment of 80,600, or 1,700 less than last year. Service sector employment, such as business services, computer and data processing, totals 765,300 in April, which is 14,200 more than the previous year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,096,500 in April 2001. An estimated 3,008,000 Hoosiers are employed and 88,500 are unemployed.

Indiana's labor force for April 2000 totaled 3,076,500. Hoosiers employed one year ago is estimated at 2,966,000, and April 2000 unemployed in Indiana totaled 110,500. Indiana's estimated unemployment rate one year ago was 3.6 percent, compared with the national unemployment rate of 3.7 percent in April 2000.

Industry Payroll Employment

Selected Categories	April 2001	Change from Mar. 2001	Change from Apr. 2000
Goods Producing	824,400	+7,400	-23,100
• Construction	152,900	+7,800	+700
